SUIT OF A CHIMNEY SWEEP. Claims His Good Name and Reputa-

tion Have Been Injured. BALTIMORE, Aug. 15,—For alleged libelous statements in a letter written by Thomas Newhall to the Board of Fire Commissioners on April 25 William H. Disney, a chimney sweecp, sued Newhall for \$10,090 damages in the Court of Common Pleas yesterday. The letter was caused by a visit paid by Disney to New-

hall's house, 33 West Preston Street. At the time the letter was written, the declaration states, Disney was a "a chimney sweep of good fame, name, credit, and reputation and deservedly enjoyed the

nery sweep of good fame, name, credit, and reputation and deservedly enjoyed the esteem of his neighbors and other worthy citizens of this State." It is alleged that "by reason of the printing and publishing of the false and malicious libel and libelous matters by the defendant the plaintiff was greatly hurt, prejudiced, and injured in his aforesaid good name, credit, and reputation, and he has been otherwise greatly damaged."

According to the letter set out in the declaration Mr. Neewhall wrote that he desired to call the attention of the Fire Commissioners "to the carelessness and inefficiency of a man named Disney, who represents himself as an authorized chimney sweep of the Ealtimore Fire Department." Then the letter charges that Disney set fire to the chimney in Newhall's house when he lighted a piece of paper to ascertain how foul the chimney was and used Newhall's telephone to call the Fire Department, the letter also states, Disney broke a valuable ornament which Newhall bought in Paris two years ago, and which cannot be replaced. Disney is also charged in the letter with pasting newspapers over the tiling around the fireplaces for the purpose, he said, of keeping the soot out of the rooms. He is further charged with not removing the paper as he had agreed to do. Mr. Newhall's servants found the work of removing the paper and paste extremely difficult, and the letter states that some of the tiling has been permanently disfagured. Newhall assistated in the letter that he "maturally refused to pay Disney's bill." Thereupon Disney sued him and Appearing at the hearing.

Governor Whitmarsh, when visiting Maofficers whitmarsh, when visiting mannial recently, told army officers that under the special law enacted by the Commission for Benguet the Igorrotes were practically in the same position as the Our famous 3c counter has been replenished with a new line of Calleoes, Crepe Cloth, Lawns and many other items, worth respectively from 6 to 10c per yard.

The Governor sets the general laws of the province, but each municipality elects its own officers and makes all laws affecting the people, excepting taxation, which is very light, amounting to 3c cents gold per annum for all persons over ten years of annum for all persons over ten years of age, property owners paying one-haif per

age, property owners paying one-hair per cent on their holdings.

"I suppose," said Mr. Whitmarsh, "that an Igorrote town is the most independent thing in the islands, because it uses every cent of its taxes for its own benefit, nothing going into the provincial fund. All that the Governor can do is to approve or suggest amendments to laws, so that the ligorrotes are getting a first rate opportu-nity to learn practically how to govern themselve. In fact, the government is the most socialistic imaginable, in accord-ance with the nature of the people, each man's property being his neighbor's, and everyone eating wherever he happens to be at meal time."

be at meal time."

The only officials of the province are the Governor, Secretary, and Inspector, who perform all the requisite duties. The first important work was quickly accomplished, every town having been organized within three months after the Governor's appointment. The only place where there was any difficulty was at Palina, where the inhabitants climbed up above the village and sat on the rocks, refusing for some time to come down, because they for some time to come down, because they contended that they belonged in another province. They soon became tractable, however, with a little reasoning.

"In making the town ordinances," said the Governor, "it was astonishing the amount of apittude and intelligence the natives displayed. I have allowed them to go pretty much of their own will, and often have approved minor legislation which I knew would be unsatisfactory, in order that they might learn its ineffectulity and improve themselves in self-gov-

The northeast line of the province has never been accorately drawn, and this section is the stamping ground of the nead hunters and ladrones, who have never been conquered and whose territory has been only partially explored. At one time a Spanish regiment went in, but came out after losing many men, and the only post they established, Asin Grande, was ultimately wiped out. Gigantic Purchase of Carpets!

Instead of the usual last of August dullness in Carpet-selling, the balance of the month shall be a season of unusual activity here. All the objections against "buying early" shall be overcome by the inducements we shall make in the sale we start today of

The stocks which we've secured at 50c on the dollar as the result of the recent consolidation of

E. S. Higgins Carpet Co. and the Hartford Carpet Co. -- two of the largest concerns in the country. The immense purchase consists of close on to three carloads of the very highestgrade carpets, which we offer at really unheard-of prices-values which will cause competitors to stand aghast, and which will make this the most-talked-of store in town.

All carpets bought during this sale will be cut now and made up, and put down later when you desire it, the only requirement being that you make a cash deposit now and pay the balance when the carpets are on the floor.

No greater evidence that this house sells high-grade carpets for less than others could be desired than the facts that we have recently secured the following contracts in competition with other large carpet houses of this city and New York:

14,000 yards 5-frame Body Brussels for the Government Buildings. 2,000 yards Wilton Velvet for floor House of Representatives.

1,000 yards Bigelow Wilton for floor United States Senate.
